

S.D.J.A RULES!

By Reut B.

San Diego Jewish Academy is the best school ever. All the teachers are nice, they are glad to answer your questions. They want you to know what you are learning. They have a lot of patience. The school has the nicest staff in the world. The principal wants you to get the best education you can get, and that is what you get.

You make friends in less than a day. The school itself is very beautiful. The school has fun days where each grade does some type of presentation - something different. The events are a blast and you just have the best time there. We have 5th graders who help you with your problems. If they can't figure out what to do we have a counselor to

help you. If you get hurt we have a nurse who will take care of it. This school is great. Try it out now!!
