Golda Meir Lower School (GMLS)

Drop-Off and Pick-Up Procedures

Please read the following carefully. Also, please follow the instructions of staff that will be present to provide further direction and assistance.

Parking

The GMLS parking lot is located on the east side of campus; it may be accessed by entering the main gate. If you need to exit your vehicle, for any reason, or would like to escort your child to his/her class please park your car in the lot – do not enter the main circle.

SDJA has set aside designated parking stalls for handicap individuals (blue), campus visitors (green), and emergency personnel (red). Out of respect for these individuals, and to protect the safety of our school population, we ask that you please keep these areas clear and available for their designated purpose

Parents may use the open parking lot stalls that are not colored red (emergency personnel), or green (visitor). Handicap parking is available in front of the Administration Building, for individuals with the appropriate DMV parking placard. No individuals are authorized to park on sidewalk or courtyard areas.

Security staff patrol the parking lot areas and will place a reminder on any vehicle incorrectly parked. Continued parking violations may result in further action.

Drop-off/Pick-up

If you are not parking, but dropping-off or picking up students, continue through the parking lot and into the main circle. Stay in the outside lane (right lane) of the circle and continue all the way around and then down the sidewalk toward the parking lot exit. (There are actually two lanes, but only use the right lane for picking-up and dropping-off. The left lane is for cars to be able to pass.)

Please progress forward as far as you can before stopping to let students out of the car. For pick-up, please do the same and progress as far down the sidewalk as you can before stopping to wait for your child. Do not stop in the left lane since it is for passing cars only.

Thank you for your cooperation and understanding as we work toward our common goal of providing a safe environment for student arrival / departure.
